## 📁 Professional Experience

### Web Development Intern

CodeClause

February 2024 – March 2024

- I enhanced my skills in HTML, CSS, and JavaScript during a virtual internship at CodeClause.
- Utilized these skills to develop and optimize the performance of projects and increase overall user satisfaction.
- From day one to completion, I've grown both personally and professionally.

## 🧠 Skills

**Languages:** (C, C++, DSA, JAVA (familiar))

**Front End Technologies:** (HTML, CSS, TAILWIND, JAVASCRIPT)

**Tools:** (Microsoft Visual Studio, Eclipse, GIT)

## 📜 Certificates

**Data Structure And Algorithm:** [📄](#) I completed a comprehensive 5-month course from August 2023 to February 2024 and received a Certificate of Completion on April 14th, 2024. My mentor was Love Babbar.

## 🎓 Education

## 📁 Projects

### GitHub Explorer [📄](#)

*Crafted an interactive web application, GitHub Explorer, using JavaScript, HTML, and CSS.*

- Implemented real-time data fetching to provide instant feedback on GitHub user-profiles and repositories.
- Developed search suggestions for enhanced user experience.
- Designed customizable dark mode and light mode options to cater to user preferences.
- Enhanced proficiency in JavaScript while honing skills in front-end development for a dynamic and engaging platform.
- Demonstrated ability to create engaging and interactive experiences, connecting users with GitHub's vast ecosystem.

### Interactive Quiz Game [📄](#)

*Crafted an engaging and interactive quiz game, showcasing proficiency in HTML, CSS, and JavaScript.*

- Implemented multiple-choice questions to challenge users' knowledge and provided real-time score tracking for instant feedback.
- Demonstrated the ability to handle user input effectively and track scores dynamically, enhancing the overall user experience.
- Designed a sleek user interface for a seamless gaming experience, emphasizing usability and visual appeal.
- Focused on creating an entertaining and educational experience, highlighting the power of technology to engage users.

### Password Generator [📄](#)

*Crafted a secure password generator using HTML, CSS, and JavaScript.*

- Ensured user-friendly customization with adjustable parameters like length and character types.
- Demonstrated proficiency in front-end technologies to create a seamless and responsive user interface.
- It strengthened web development skills by delivering a practical tool that enhances online security.

### Weather App [📄](#)

*Developed a user-friendly weather website utilizing HTML, CSS, and JavaScript.*

- We implemented accurate and reliable weather forecasts for a seamless user experience.
- Customized the interface to deliver localized insights, ensuring relevance for each user.
- Proficiently utilized front-end technologies to create visually appealing and responsive designs.
- It strengthened web development skills by delivering a practical tool informing users about weather conditions.
